**DETAILED ACTION**

***Claim Objections***

1. Claim 4 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. The limitations of claim 4 have already been recited in claim 1.

***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-12 are rejected under 35 U.S.C. 102(b) as being anticipated by McIntyre (US Patent 4,097,012).

With regards to claims 1, 4, 5, 8, 9 and 11, McIntyre discloses a first mount bracket 30 rotatably attached to a first assembly (11, 20), a second mount bracket 30 (opposite side in figure 1) rotatably attached to a second assembly (11, 20, 24), and a perpendicular rigid attachment R joining the first mount bracket to the second mount bracket (fig. 4 with perpendicular arms 32), the mount bracket retaining rotational freedom around a rotational axis (see col. 2, lines 43-53). Applicant should note that the recited method steps are inherent.

Art Unit: 3726

For claims 2, 3 and 10, see assembly screw 23a and insert 33.

For claim 6, the first and second mount assemblies are spaced as shown in figures 1 and 4.

For claim 7, mount bracket 30 comprises at least one ear 32 that could be grasped for positioning.

For claim 12, arm portions 32 are rigidly attached to each other through rigid attachment R and screws as shown in figure 4.

### ***Response to Arguments***

4. Applicant's arguments with respect to claims 1-12 have been considered but are moot in view of the new ground(s) of rejection.

### ***Conclusion***

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
